## EDUCATION

---

### Tecnológico de Monterrey

*B.S. Computer Science*

Puebla, México

*Graduating in May 2021*

## EXPERIENCE

---

### Full Stack Developer

August 2020 – December 2020

*Museo Urbano Interactivo, Tecnológico de Monterrey*

*Puebla, México*

- Developed two full-stack web applications using MongoDB, Express, React, NodeJS, Heroku and WordPress.
- "Memoria Sonora" is an audio exhibition website about how people were living the pandemic.
- "Fortune Teller BOT" is a website that shows predictions about how Mexico and the World will be in the future.
- In both web-sites, I worked on all parts, from conception to deployment.

### Junior Developer

August 2020 – December 2020

*Accurate Media*

*Puebla, México*

- Provided Technical Support to customers about the content management system (CMS) "AccuPro"
- Improved the user experience by modifying the CSS and HTML of "Accupro"

## MAJOR SCHOOL PROJECTS

---

### IKA Aquarium | *MySQL, PostgreSQL, MongoDB, Express, NodeJS, React*

Spring 2020

- Developed an administration panel for "Ika Aquarium"
- The dashboard manages store inventory, sales, purchases, employees, and products.
- Created a page for customers, where they can buy products and leave a review of them.
- Worked in Back-end and Front-end.

### GranjaApp | *Google Cloud, PostgreSQL, Express, NodeJS, Angular, Java, Swift*

Fall 2019

- Developed a full-stack web application focused on farm management
- Created the mobile application (Android and iOS) of the website
- The application was given to "Colegio de Postgraduados" and now is used by them.
- Worked in Back-end and Android Application.

### Industrias Cabrera | *MySQL, PHP, HTML, CSS*

Spring 2019

- Developed a full-stack web application focused on Industrias Cabrera management
- The web page includes functionalities such as Insert, delete, show, edit, sort, and save inventory
- The web page allows the administrator to control the business earnings.
- Worked in Back-end and Front-end
